Our Gracious God, we seek Your presence and approval. For the authority given to these men and women individually, and this body corporately, is on loan from Your own sovereignty and power. Liberate them, therefore, from the shackles of mind and vision that might cause them to succumb to the pressures of regionalism, elitism and petty politics. Remind them of the responsibility they carry, and empower them to act in concert for the common good, for this is Your will. If they fail, the angels of Heaven will weep for Your judgment is swift and sure. We pray in Your Most Holy Name, Amen.

"36.(a)A home-rule city may adopt an ordinance which requires the demolition or repair of buildings which are dilapidated, substandard, or unfit for human habitation and which constitute a hazard to the health, safety and welfare of the citizens. The ordinance must establish minimum standards for continued use and occupancy of structures, and these standards shall apply to buildings regardless of when they were constructed. The ordinance must provide for proper notice to the owner and a public hearing. After the hearing, if the building is found to be substandard, the city may direct that the building be repaired or removed within a reasonable time. After the expiration of the allotted time the city has the power to:

(1) repair or remove the building at the expense of the city and assess the expenses on the land on which the building stands or stood or to which it was attached and may provide for that assessment, the mode and manner of giving notice, and the means of recovering the repair or removal expenses; or

(2) assess a civil penalty against the property owner for failure to repair or remove the building and provide for that assessment, the mode and manner of giving notice, and the means of recovering the assessment.

(b) The city may repair a building under Paragraph (a) of this subdivision only to the extent necessary to bring the building into compliance with the minimum standards and only if the building is a residential building with ten or less dwelling units. The repairs may not improve the building to the extent that the building exceeds minimum housing standards.

(c) The city may impose a lien against the land on which the building stands or stood to secure the payment of the repair or removal expenses or the civil penalty.

(d) The city's lien to secure the payment of a civil penalty or the costs of repairs or removal is inferior to any previously recorded bona fide mortgage lien attached to the real property to which the city's lien attaches if the mortgage lien was filed for record in the office of the county clerk of the county in which the real property is located before the date the civil penalty is assessed or the repair or

removal is begun by the city. The city's lien is superior to all other previously recorded judgment liens.

(e) Any civil penalty or other assessment imposed under this subdivision accrues interest at the rate of 10 percent a year from the date of the assessment until paid in full.

Sec. 2. The importance of this legislation and the crowded condition of the calendars in both houses create an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days in each house be suspended, and this rule is hereby suspended; and that this Act take effect and be in force from and after its passage, and it is so enacted."
